100+: \$43/tree + GST

By submitting this order request it does not guarantee that Kings Truffles can supply your request. However it does mean that trees will be produced in spring, ready for autumn dispatch if testing is successful.

Full payment will not be charged until the trees have been positively tested. This is usually in March each year. If the nursery needs to hold your order for any length of time then 25% deposit may be charged. Final payment is due at the time of the collection, or dispatch, of the trees.
